BEHAVIOURAL PROCESSES

Contents of Volume 36

Research Papers

J.M. Roll, F.K. McSweeney, C.B. Cannon and K.S. Johnson (USA)
Knowledge of session length is a determinant of within-session response patterns in a human operant paradigm 1

A. Nejdi, J.-M. Guastavino, R. Lalonde, D. Desor and B. Krafft (France, Canada)
Behavioral differentiation of mice exposed to a water tank social interaction test 11

D. Assi Bessékon and A. Horel (France)
Social-maternal relations in *Coelotes terrestris* (Araneae, Agelenidae): Influence of the female reproductive state on its tolerance towards conspecific spiderlings 19

M.S. Dawkins, T. Guilford, V.A. Braithwaite and J.R. Krebs (UK)
Discrimination and recognition of photographs of places by homing pigeons 27

C. Mélan, V. Castéras, M. Corbière and A. Gallo (France)
Response strategies during acquisition of serial learning in pigeons (*Columba livia*) 39

L.C. Drickamer and T.R. Evans (USA)
Chemosignals and activity of wild stock house mice, with a note on the use of running wheels to assess activity in rodents 51

F.K. McSweeney, J.N. Weatherly and S. Swindell (USA)
Within-session changes in responding during variable interval schedules 67

L. Girolami, G. Fontani, L. Lodi and C. Lupo (Italy)
Hippocampal cholineacetyltransferase activity, agonistic behaviour and social stress in male rabbits 77

S.B.M. Kraak (The Netherlands)
Female preference and filial cannibalism in *Aidablennius sphynx* (Teleostei, Blenniidae); a combined field and laboratory study 85

Short Reports

S.B.M. Kraak (The Netherlands)
'Copying mate choice': Which phenomena deserve this term? 99

M. Lucherini and S. Lovari (Italy)
Habitat richness affects home range size in the red fox *Vulpes vulpes* 103

Acknowledgement 107

Research Papers

A. Poling, W. Temple and T.M. Foster (USA, New Zealand)
The differential outcomes effect: A demonstration in domestic chickens responding under a titrating-delayed-matching-to-sample procedure 109

R.B. Jones, A.D. Mills and J.-M. Faure (UK, France)
Social discrimination in Japanese quail *Coturnix japonica* chicks genetically selected for low or high social reinstatement motivation 117

A.M. Aloisi and G. Carli (Italy)
Formalin pain does not modify food-hoarding behaviour in male rats 125

B.L. Deputte and R. Quris (France)
Socialization processes in primates: Use of multivariate analyses. I: Application to social development of captive mangabeys 135

A. Ugolini and R. Chiussi (Italy)
Astronomical orientation and learning in the earwig *Labidura riparia* 151

L.L. Crawford and M. Domjan (USA)
Conditioned inhibition of social approach in male Japanese quail (*Coturnix japonica*) using visual exposure to a female 163

J.J. Cooper and M.C. Appleby (UK)
Demand for nest boxes in laying hens 171

M.A. Ryan, A. Čokl and G.H. Walter (Australia, Slovenia)
Differences in vibratory sound communication between a Slovenian and an Australian population of *Nezara viridula* (L.) (Heteroptera: Pentatomidae) 183

M.H. Johnson and S.P. Vecera (UK, USA)
Cortical differentiation and neurocognitive development: The parcellation conjecture 195

Research Papers

R. Cervo, F. Bertocci and S. Turillazzi (Italy)
Olfactory cues in host nest detection by the social parasite *Polistes sulcifer* (Hymenoptera, Vespidae) 213

J. Bégin, J.P. Beaugrand and R. Zayan (Canada, Belgium)
Selecting dominants and subordinates at conflict outcome can confound the effects of prior dominance or subordination experience 219

S. Focardi and A. Tinelli (Italy)
May random processes explain mating success in leks? 227

K.G. Mitchell, J.L. Calton, R.C. Threlkeld and T.R. Schachtman (USA)
Attenuation and reacquisition of foraging behavior in a patchy environment 239

S.G. Reebs (Canada)
Time-place learning in golden shiners (Pisces: Cyprinidae) 253

M. Takahashi (Japan)
Schedule segmentation and delay-reduction theory 263

J.S. Cohen and R. Roberts (Canada)
The role of trial tracking on rats' successive delayed matching-to-sample modality performance 277

G. Vallortigara (Italy)
Learning of colour and position cues in domestic chicks: Males are better at position, females at colour 289

Short Report

Y. Miyachi (Japan)
Head-up behavior induced by low-doses of X-irradiation in the mouse and its disappearance by zinc sulfate perfusion in the nasal passage 297
